

Dear Corstorphine Businesses,

We are eager to help provide your local council with services that will help your community to stay up and running as our routines and purchasing habits adjust due to Covid-19. We have built a marketplace platform to provide businesses an avenue to sell to locals online without the effort of building your own e-commerce website.

We invite all traders, retailers and makers of Corstorphine to list their business on our website where, once your 'shop front' has been approved, you can list products, setup your own shipping configurations and promote your 'shop front' to locals through social media.

Have a [look here to see what we've been up to](#), when you list products they will be featured on both your own business shop front

You can get started on your business profile [here](#). Once you've filled in the first form, you can proceed in setting up your entire shop front with images, details and information about your business. We'll approve it and make sure you've included everything you need, following which you will be granted access to start listing products and configuring your shipping details. For a detailed summary on understanding the [platform for sellers, please review this short video](#).
